PROFILE

Full-stack developer with hands-on experience in Web and Mobile Application Development using the MERN stack, Flutter, and AWS. Skilled in building scalable applications, implementing secure user authentication, integrating REST APIs, and designing intuitive user interfaces backed by strong backend logic. Experienced in deploying and managing cloud-based applications using AWS services. Known for strong problem-solving ability, quick adaptability, and writing optimized, maintainable code. Seeking an opportunity to contribute to innovative development teams while building impactful digital solutions.

EDUCATION

- | | |
|---|--------------------------------------|
| - Chandigarh University
Bachelor of Engineering, Computer Science and Engineering | 2026
Mohali, Punjab, IN |
| - Garhwa Polytechnic
Diploma in Mechanical Engineering | 81.5%(2023)
Garhwa, Jharkhand, IN |
| - BP DAV Public School
CBSE 10 th Grade | 78.6%(2020)
Garhwa, Jharkhand, IN |

EXPERIENCE

- **MERN STACK Developer | Solitaire Infosys , Mohali , Punjab** Jan - May 2026
Tools: MongoDB, Express.js, React.js, Node.js (5 Months)
 - Developed and maintained full-stack web applications and ensuring high performance and scalability.
 - Managed database design and operations in MongoDB, including schema modeling and query optimization.
 - Designed and implemented RESTful APIs using Node.js and Express.js for efficient client-server communication.
- **Software Development Engineer (SDE) Intern | BlueStock , Pune (Remote)** July - Dec 2025
Tools: MongoDB, Express.js, React.js, Node.js , System Design (6 Months)
 - Built and deployed a production-ready IPO Web Application using the MERN stack.
 - Developed responsive UI, user authentication, and managed database operations with MongoDB.
 - Collaborated with team for testing, debugging, and cloud deployment.
- **Amazon Web Service- IN House Summer Training** May - June 2024
Tools: AWS(6 weeks)
 - Learned cloud computing fundamentals: virtualization, global infrastructure, regions & availability zone.
 - Deployed web applications on EC2 and configured S3 + CloudFront for static website hosting.

PROJECTS

- **University Student Database Management System**  Dec 2025
Tools: React, Express Js, Node Js, MongoDB
 - Developed a Student Management System for handling students, teachers, classes, and attendance.
 - Implemented modules for admissions, fees, timetables, exams, and user authentication.
 - Designed database structure to ensure efficient data storage and retrieval.
- **CashPie : Expense Tracker**  March 2026
Tools: Flutter , Dart
 - Developed a production-quality personal finance app using Flutter for tracking income and expenses.
 - Implemented features to visualize spending patterns and set savings goals.
 - Built a fully offline, secure, and user-friendly application for efficient financial management.
- **Organic E-Store**  May 2026
Tools: React, Express Js, Node Js, MongoDB
 - Developed a full-stack Organic E-Store application using the MERN stack with complete e-commerce functionalities.
 - Implemented efficient database management using MongoDB and integrated secure online payments using Stripe.
 - Deployed and managed the application on AWS, optimizing performance and ensuring scalability across multiple devices.

SKILLS

- **Programming Languages:** Java , Dart
- **Web Tech:** HTML, CSS, Java Script , React, Node Js, Express Js , My SQL , Mongo DB
- **App Tech:** Flutter , Dart
- **Other Skills:** Data Structures and Algorithms, Amazon Web Service, Wix Studio
- **Tools:** GitHub, VsCode, PostMan

ACHIEVEMENTS & CERTIFICATIONS

- Winner of Ideathon.
- Published an IEEE Research Paper on Skin Disease Detection by CNN.
- Foundation in IOT , Cloud , Edge and ML Certificate – NPTEL
